WORK EXPERIENCE

SDE INTERN AT NIVEUS SOLUTIONS | NOV. 2023 - APR. 2024

- Developed a dynamic platform to display client company sales data comparisons with competitor companies with features like customizable graphs, switchable sales tables, and a sales funnel. Implemented options for users to filter data by year and region using React.js and Node.js.
- Developed a secure mobile banking app for HSBC Bank, featuring user authentication, KYC onboarding, and a financial retirement planning dashboard using FlutterFlow.

PROJECTS

SOCIAL MEDIA APPLICATION | [LINK](#)

- Developed a comprehensive social media application that supports user authentication, profile management, a multi-level comment system, user search functionality, and the creation and management of communities
- The application built using technology stack that includes Next.js, TypeScript, Zod, Tailwind CSS and MongoDB.

CHAT APPLICATION | [LINK](#)

- Developed a application that supports real-time chatting using WebSockets, media file sharing in chat with timestamps, and displays the current online/offline status of users.
- A real-time chat application with user authentication, built using MongoDB, Express, React.js, and Node.js.

LINKEDIN CLONE | [LINK](#)

- Developed a LinkedIn Clone web application that supports user authentication and gives users the users the ability to write and post articles.
- Built with React as the front-end tool, Redux ,Firebase. The application replicates the LinkedIn platform, providing a seamless and user-friendly experience.

ACHIEVEMENT

- **HACKWAVE'23**
Achieved the winner position in the Hackwave'23 24 Hours hackathon conducted at NITK Suratkal.
